

## Q&A'S FROM NOVEMBER 2021 ALT INDUSTRY

**Q1: How many TLS-EAB White papers were received?**

A1: This is competition sensitive.

**Q2: Will there be a TLS EAB Request for Proposal Prototype even under the Continuing Resolution?**

A2: Yes. We will take it all the way to award. However, depending on how long the CR lasts, we will not be able to award until it ends and funding is available.

**Q3: When will the TITAN Competitive Prototype Phase RFP be released?**

A3: There is no TITAN RFP in the near future. We will award (via C5 OTA) the follow-on for competitive prototyping to the two vendors currently on contract.

**Q4: What actions are the TITAN Surrogate performing? Space-based only?**

A4: Existing capabilities were demonstrated and supplemented with commercial solutions to provide an interim capability to TITAN.

**Q5: Can you paste that URL she (Shahaadah Nalls) just**

said in the chat?

A5: <https://www.saferfederalworkforce.gov>

**Q6: The first RFI for NRTIO what contract vehicle was that issued under? The RFI on RS3 was released today.**

A6: RFI (W909MY21RG013) for Technical Refresh of NRTIO SEEKs (TRONS) was released via Beta. SAM.gov (formerly fbo.gov) to all potential offerors.

**Q7: Any updates to TENCAP SETA Fort Belvoir?**

A7: PEO IEW&S TENCAP anticipates a follow-on SETA contract to replace the one soon expiring in MAR 2023 and the Government will be inquiring industries to determine the best value for services in the near future.

**Q8: Would you please briefly review the scope of TS FMS Services expected for release as a SBSA under RS3?**

A8: The Scope of work for this action is that it will provide aerostat and tower sustainment support to the fielded FMS programs.

# INDUSTRY DAY Q&A

**Q9 (a): Can you confirm that RS3-21-0001 PM FPS Common C2 has been cancelled?**

**Q9 (b): Will there be another RFI for the PM FPS Common C2 program due to the delay? Also, is it still anticipated via RS3?**

A9 (a): It is on a hold as of now. We will determine a path forward with the User Community to identify the potential need for this capability.
